Subject: REACH Status **AOC Resin Products**

Dear Valued AOC, LLC Customer,

AOC products are classified as “polymers” in accordance with REACH Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006. Polymers are exempted from REACH registration. However, the monomers and other additives that are part of the polymer are considered substances that require registration under REACH when those substances are imported in volumes greater than 1 ton annually,

AOC, LLC is fully committed to meeting the REACH compliance requirements for products that are imported into the EU. As a part of our strategy, AOC, LLC has appointed Intertek Semko Service AB as our Only Representative (OR) according to article 8(1) of the REACH regulation (regulation 1907/2006/EC). In keeping with our commitment, all phase-in (existing) substances relevant to established products being directly exported into the EU by AOC have been pre-registered unless pre-registration was not required. In addition those substances that trigger REACH registration are intended to be registered by the manufacture by May 31, 2018.

For your reference, the contact information of our OR, Intertek, is being provided below:

AOC, LLC has also entered into agreements with many of our suppliers for coverage under their individual REACH registration. We submit the annual volume of imported substances to those suppliers that we have agreements with. AOC’s intention is to have supplier agreements for all of our applicable polymer components prior to the 2018 REACH registration deadline.

AOC product SDS can be obtained through your AOC sales representative or by requesting through AOC’s web site, <http://www.aoc-resins.com/web/site/msds/>
