AOC’s Vicast A520 is a non-thixotropic, polyester resin designed for filled casting applications. Vicast A520 may be used as a binder in conjunction with a variety of crushed stone in the production of cast polymer articles.

**Applications**
For Polymer Composite Castings using engineered stone, quartz, granite or marble.

**Benefits**
- Low Color
- Improved impact strength

AOC is a major global supplier of resins, gel coats, colorants & materials for composites and cast polymers
