VIBRIN[®] G560

Polyester Gel Coat for Spray Applications

Vibrin G560 is a pre-promoted, thixotropic, high performance polyester gel coat designed for spray applications.

APPLICATIONS

Designed to possess best of class UV stability that makes G560 the desired choice among marine, transportation and architectural fabricators.

BENEFITS

- G560 imparts outstanding cosmetics, including a high gloss finish that weathers better than competitive gel coats.
- When compared to competitive gel coats, G560 better resists color-blushing and water-spotting.
- Resistance to water makes G560 ideal for marine applications.
- Low HAP content of G560 conforms with MACT standards for both marine and general-purpose composite applications.

**AOC is a major global supplier of
resins, gel coats, colorants & materials
for composites and cast polymers**
