N640 Low Profile Additive is a PVA polymer that has been thinned in styrene. N640 is intended to reduce shrink in high reactive polyester resins designed for Sheet Molding Compound (SMC) and Bulk Molding Compound (BMC) applications.

**APPLICATIONS**
- Appliances
- Automotive parts
- Consumer goods

**BENEFITS**
- Suitable for paintable and bondable applications
- Provides smooth surface and dimensional control (zero-shrink to expansion capable)
- Provides high gloss

AOC is a major global supplier of resins, gel coats, colorants & materials for composites and cast polymers
