AOC’s N714 Shrink Control Additive is a general purpose polystyrene based additive that has been thinned in styrene.

N714 is intended to reduce shrink in high reactive polyester resins designed for Sheet Molding Compound (SMC) and Bulk Molding Compound (BMC) applications.

APPLICATIONS
• Cookware
• Electrical Housings and Applications
• Consumer Goods

BENEFITS
• Low shrink additive
• Suitable in pigmentable applications
• When combined with proper unsaturated polyesters, can be used in SMC/BMC applications that comply with FDA criteria.
