S154-60
Low Profile Additive

S154-60 Low Shrink Additive is a saturated polyester resin. S154-60 is intended to reduce shrink in high reactive polyester resins designed for sheet molding compound (SMC) and Build Molding Compound (BMC) applications.

APPLICATIONS
• Appliances
• Automotive Parts
• Consumer Goods

BENEFITS
• Suitable for paintable and bondable applications
• Provides smooth surface and dimensional control (expansion capable.)
